Thursday, October 11, 2018

The Managing Director
Chibek Instruments Limited
12, Chris Akinro Close, Off Agungi Road
Lekki- Lagos

Dear Sir,

INVITATION TO SUBMIT QUOTATION FOR THE SUPPLY OF 12,000 LITHIUM BATTERY ENERGY STORAGE SYSTEM

Following our earlier interactions, your Company advised that we should acquire the indicated back-up device to support the Scanning Electron Microscope (SEM) and similar equipment that your Company supplied to our University.

In view of the above, we hereby invite you to submit quotation for the "Supply and Installation of 12,000 Lithium Battery Energy Storage System" to serve as back-up to the SEM. Due to our indebtedness to your Company, we offer to make this transaction a part of existing Contract between PAMI and your Company i.e. Chibek Instruments Limited if your price is acceptable to us. Accordingly, we will make full payment as soon as the device is successfully delivered and installed.

Please note that the equipment is required urgently to enable Technicians coming from South Africa to repair the damaged SEM. Therefore, we request that you deliver the device within 48 hours.

Kindly revert to me, should you require more information or clarification.

Prof. Peter Onwualu
PAMI Co-Centre Leader
AUST.

INTERNAL MEMO

To: PAMI Centre Leaders
From: Morgan Leo AKPAN
CC: Director of Accounts/Bursar
Date: Wednesday, October 10, 2018
Subject: **URGENT NEED TO PROCURE BACK-UP UPS FOR SCANNING
ELECTRON MICROSCOPE (SEM)**

Sir, there is an urgent need to acquire Back-Up UPS to support the indicated equipment in the AfDB Laboratory. The UPS is required to enable the South African Technicians who are expected in AUST next week to successfully repair the SEM.

In an earlier enquiry from Chibek Instruments Limited, the Company that supplied the SEM under AfDB Project, we were advised to use 12,000 LITHIUM Battery Energy Storage System to support the equipment. On this basis, I am seeking your approval to invite Chibek to submit quotation for the "Supply and Installation" of the back-up device.

Due to urgency, it is my considered suggestion that the amount quoted by Datalloid Systems (N10,450,000.00) for the Supply and Installation of 10KVA UPS on February 21, 2018 (which was cancelled) be used as a benchmark.

We are no longer attractive to Chibek Instruments Limited due to our huge indebtedness to the Company. Therefore, if this transaction goes through, we should consider it a part (or component as the case may be) of our existing Contracts with them and also offer to make full payment upon satisfactory delivery and installation of the device.

Awaiting your directive, Sir.

Yours in service,

Morgan Leo AKPAN
